All moves done on Wednesdays – Qantas Flight QF108
Meeting Time 2:30pm @ JFK

We will meet you and escort you and your pet to the USDA Veterinarian's Office. Any food or bedding must be added to the pet's cage at this time. The USDA Veterinarian will check all of your paperwork & approve and stamp all documents. The animal's cage will then be sealed by the veterinarian.

The USDA Veterinarian will charge between US\$90.00 & US\$125.00 and will accept payment by CREDIT CARD ONLY – NO CASH OR CHECKS.

After Veterinarian approves documents and seals the cage we will escort you and your pet to the Qantas Cargo warehouse to check in the pet.
Usually this entire process is completed by 4pm.

You MUST fax ONLY the TOP COPY of your AQIS Permit to Cargo Services of N.Y. TWO WEEKS PRIOR to desired flight.

FAX: (718) 527-5203

At that time, we will need the cage size and a contact name and telephone number in Australia for notification upon the animal's arrival.

Please make sure the veterinarian that you are working with is a USDA Approved Veterinarian. If you are unsure you can call the USDA veterinarian at JFK to check – (718) 553-1727

IF YOUR VET IS NOT APPROVED BY THE USDA PAPERWORK WILL NOT BE APPROVED AND YOUR PET WILL NOT BE ALLOWED ON THE FLIGHT – SO PLEASE CONFIRM AHEAD OF TIME.

We can quote your cost at any time once we have the cage size. The only variance in the rates may be the current cost of the Airline's Fuel Surcharge. Usually this will only amount to a few extra dollars or cents.

*****ALL COSTS FIXED BY QANTAS FREIGHT****

You MUST have a valid photo I.D. to be copied and kept on file. (Passport, Driver's Lic., etc.)

You MUST have a water bottle for the cage and it must be attached to the outside of the cage – NOT INSIDE. Any local pet store will carry this item.

Qantas' Wednesday flight QF108 departs 1920 and arrives in Sydney on Friday at 0725. This flight has temperature and pressure controls in the animal's compartments. Qantas will check on the animals when the flight stops over in Los Angeles to ensure all is well and the animal is comfortable.
